

## Why are we building?

1. Health reasons – MaryAnna has been told by her doctor that our housing needs to change
2. Location – The new location is in the main housing section of Nulato and more available to serve and connect with people.
3. Permanence – No longer renting will give us more stability and communicate our long term commitment to ministry in Nulato

## Financial needs

We estimate the project to cost 265k (all volunteer labor)

- Material for the shell 80k
- Windows and doors 15k
- Interior finishes and flooring 50k
- Electrical and plumbing 30k
- Equipment rental and tools 30k
- Kitchen & Bathrooms 30k
- Barge costs 30k

We currently have raised 20k

We have been given a 1 year no interest loan of 70k to be able to get shell material here and begin building.

# Casey House Project

## What are we building?

A 4 bedroom 2 bath house for our family. It will be 36x56 situated on a gravel pad. Heated by Toyotomi stove and wood stove, with water and sewer connections to the city.

Jon & MaryAnna Casey family

## When are we building?

Material has already arrived for the outer shell and insulation! We have some teams already scheduled and local people offering to help. Work is already underway with the goal of *moving in before December.*

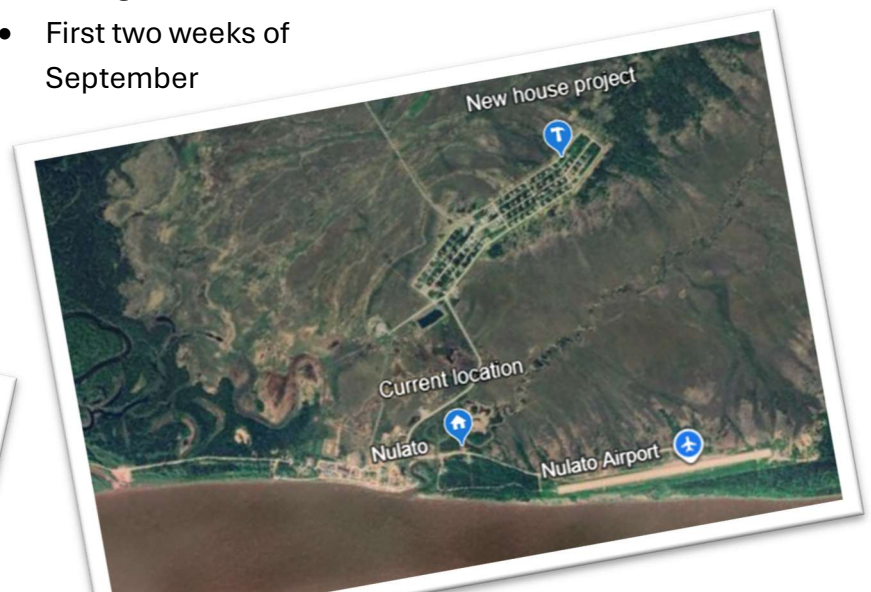

Teams scheduled

- July 11-16
- Aug 22-27
- Sept 15-26

## Physical Needs

We could use help with the building in these time frames:

- Last week of July
- Middle two weeks of August
- First two weeks of September
